1. Twenty-eight Pe-2s were stationed at Zwoelfaxing (P 49/X 48) airfield on 2 August 1950. There was intensive flying. A twin-engine, low-wing monoplane with single rudder assembly and painted silver landed at the field. It took off after an hour, heading southeast. Source continually observed aircraft of the same type in Wiener Neustadt.

- * [REDACTED] Comment. From the aircraft and motor vehicles it is assumed that the field is still occupied by a regiment of the 1st Gds Bmr Div. Compared with information of June 1950, the number of aircraft assigned to this regiment seems to have been reduced. [REDACTED] 25X1A
